

A photograph of an air traffic control room. Four people are seated at a long console, viewed from behind, looking out a large window at an airfield. A monitor is suspended from the ceiling. The scene is dimly lit, with light coming from the window.

NATCA Air Traffic Controllers-

We guide you home!

Unmanned Aircraft Systems

NAS Integration

WE GUIDE YOU HOME

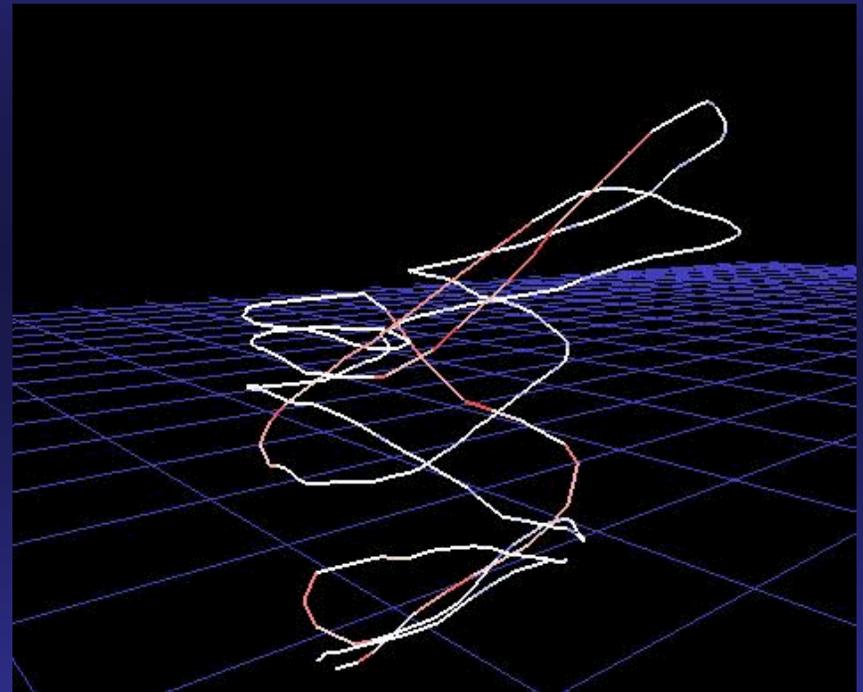

Issues Affecting Air Traffic Controllers

- Controller Training
- Separation Standards
- Communications

Controller Training

- Aircraft performance characteristics
- Aircraft operational considerations

Separation Standards

- From other aircraft
- Class B, C and D considerations

Communications

- Unreliable
- Lag time vs. seamless transmission
- Non-existent

NATCA Supports:

- A-07-65
- A-07-67

Thank You
