Safety Board
PRESENTS

PREVENTING LOSS OF CONTROL IN GENERAL AVIATION

LESSONS LEARNED FROM NTSB ACCIDENT INVESTIGATIONS

SEPTEMBER 9, 2017 // 0830-1230 // MID-ISLAND AIR SERVICE HANGAR // RONKONKOMA, NY

Since 2012, nearly half of fatal general aviation accidents in the New York/Tri-state region have been caused by loss of control (LOC) in flight.

Join this special session and learn more about LOC, its causes, and how to avoid LOC in flight. **NTSB investigators** will present local accident case studies occurring in New York and surrounding area, and **experts from the Federal Aviation Administration (FAA)** and the **Aircraft Owners and Pilots Association (AOPA)** will offer their own unique perspectives on this critical safety issue.

WINGS program credit will be available through the FAA.

Date: **Saturday, September 9, 2017**

Time: **0830-1230**

Location: **Mid-Island Air Service Hangar**
101 Hering Drive, Ronkonkoma, NY

OPENING REMARKS:
The Honorable
Earl F. Weener, PhD
NTSB Board Member

PRELIMINARY PROGRAM

Subject to change

SATURDAY, SEPTEMBER 9

RELATED INFORMATION:
NTSB Aviation Safety Alerts: <http://www.ntsbgov/air>
NTSB Most Wanted List: <http://www.ntsbgov/safety/mwl>

The NTSB is an independent federal agency charged by Congress with investigating every civil aviation accident in the United States and significant accidents in other modes of transportation—highway, marine, railroad and pipeline. The NTSB determines the probable cause of the accidents and issues safety recommendations aimed at preventing future accidents. For more information, visit www.ntsbgov
